THE WAY WE TRAVEL

A little guide
to traveling well
with VHG Hospitality

VHG HOSPITALITY ASIA
Developing Asia, Unrivalled Hospitality

Welcome

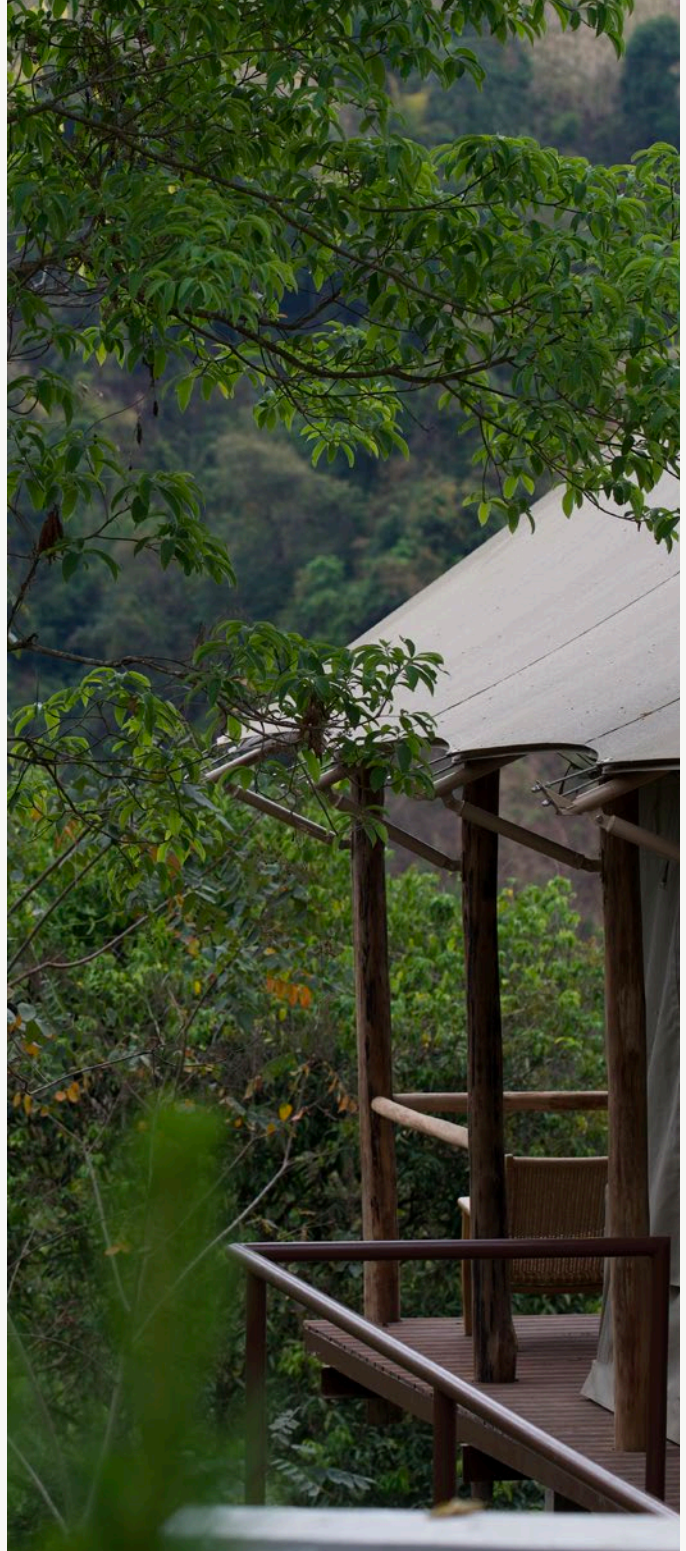

When you travel somewhere new you encounter different landscapes, different people and different rhythms.

And that's what makes travel exciting! Remote, wild, and far from the usual tourist trail.

We believe the further you travel from the crowds, the more there is to discover. And when you travel this close to nature and local communities, you also have a responsibility to care for them.

That's why we work closely with locals, protect the environments around us and look for ways tourism can create lasting value.

We invite you to experience these places with us, and to help us care for them along the way.

Discover the VHG Family

Every VHG property has its own story, shaped by its landscape, people and culture. Together, they form a collection of places where responsible hospitality is part of the experience.

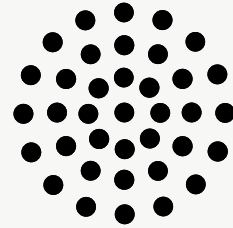

What connects us is our shared commitment to **the 4C's:**
Conservation, Community, Culture and Commerce.

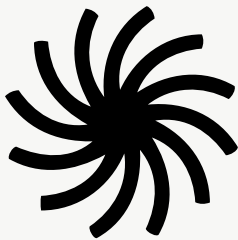

CONSERVATION

Protecting the natural places
and biodiversity around us.

COMMUNITY

Creating opportunities
and supporting local livelihoods.

CULTURE

Respecting and celebrating
the people, traditions
and identity of each place.

COMMERCE

Building responsible businesses
that create lasting value.

Traveling Thoughtfully

Small changes can go a long way.

We are always looking for ways to reduce our footprint, and there are simple ways you can help too. Nothing complicated. Just a few thoughtful choices along the way.

Saving Resources

Switch off lights and air-conditioning (if applicable) when you leave your room. Use water thoughtfully and turn off the tap when you don't need it.

Reducing & Recycling Waste

Skip unnecessary single-use plastic. Refill your bottle. Take only what you can finish. Follow recycling signs and ask our team if you're unsure.

Respecting Nature

Stay on trails, give wildlife space and never feed animals.

Going Local

The best way to discover a place? Get to know its people.

Let's be honest. Some of the best parts of travel can't be bought in a gift shop.

So why not:

- Taste something new.
- Learn a few words.
- Meet the people.
- Buy from local makers.
- Choose local guides and community experiences.

Remember to be curious & always respectful. A destination is more than a beautiful place to visit. It's also someone's home.

Help us care for our children

When travelling, please choose experiences that protect children and respect their rights. Avoid buying from very young vendors, visiting schools or orphanages, or engaging in activities where children are placed in a tourism setting.

Not sure? Ask us.

At Cardamom Tented Camp

Cardamom Tented Camp is a little different from your average hotel. You're staying in one of Cambodia's great rainforests, where nature is very much part of the experience.

We operate with a simple principle: comfort in harmony with nature. We aim to create an unforgettable wilderness experience while minimising our environmental footprint and contributing positively to conservation in the region.

Here are a few things to keep in mind while you're staying with us.

Solar Powered

Our camp runs entirely on solar power.

Please switch off lights, fans and charging devices when you're not using them.
High-energy appliances such as hairdryers aren't suitable for the camp.

Keep food out of your tent

This one is important.

Food can attract monkeys and insects, and create risks for both you and wildlife.
Need somewhere to store food? Just ask our team.

Water

Enjoy your showers and river activities, while using water thoughtfully.

Being as remote as we are, we're fortunate to have a reliable water supply that is responsibly managed.

When you're in the Jungle

The rainforest is beautiful, but it is also unpredictable.

- Stay on marked paths unless accompanied by staff
- Wear appropriate footwear
- Do not remove plants, animals, or natural objects
- Keep noise levels low to protect wildlife and fellow guests
- Do Not Feed the Wildlife
- Observe animals quietly and from a distance
- Follow staff guidance during activities and excursions

Why your stay matters

Your stay helps support:

- Wildlife protection and anti-poaching
- Local employment and training
- Long-term conservation of the Cardamom rainforest

Ask us about the work happening around you. They'd be happy to share it.

Take home the memories. Leave something positive behind.

Travel is a two-way exchange. We hope you leave with wonderful memories, a deeper appreciation for the places you've visited, and knowing that your stay has made a positive difference.

Please tell us how we did.

Share your thoughts with our team before you leave. Your feedback helps us keep improving the way we care for our people, our places and our guests.
